**Massachusetts Maternal, Infant,
and Early Childhood Home
Visiting (MA MIECHV), including
Welcome Family**

347 pregnant women
2,808 infants (<1 year)
1,131 children (ages 1-6)
other individuals:
3,400 - postpartum women
97 - male caregivers

**Massachusetts Poison Control
Center**

1,558 infants
18,153 children (ages 1-22) including direct outreach to 61
children
17,644 other individuals (adults & people of unknown age)

Attachment 1 Table
Massachusetts Program Service Numbers by MCH Categories, FY20

Massachusetts Pregnant and Parenting Teen Initiative (MPPTI)	48	pregnant adolescents (14-24)
	86	infants
	301	children age 1-10
	283	parenting adolescents (ages 14-24)
MassCARE (Mass. Community AIDS Resource Enhancement)	8	pregnant women (including adolescents)
	7	children with SHCN (age 18 and younger), including 7 infants
		other individuals:
	213	- case managed clients (over age 18)
	42	- parents attending trainings, meetings, and activities
	2	- paid parent positions
MASSTART (Mass. Technology Assistance Resource Team)	259	children with SHCN served
	114	children with SHCN – new referrals
	267	other individuals: health care professionals, teachers, other human service professionals (TA encounters)
Maternal Mortality and Morbidity Review	21	committee members (including 6 MDPH staff)
	1	review meeting
	7	deaths reviewed
Medical Review Team	74	reviews
	71	children and youth with SHCN screened for skilled facility placement.
		certified for placement:
	8	- long-term
	58	- short-term (respite) (8 new referrals)
	4	- short-term (rehabilitation) (ages 18-22)
	1	- post-hospital
Metabolic Food and Formula Program	46	children with SHCN (PKU and related metabolic conditions) (ages 0-18) received special PKU formula and/or foods
	25	other individuals: adults (ages 19-68)
Neonatal Abstinence Syndrome Pilot Surveillance System	834	infants born between 4/1/20 and 3/31/21 with NAS, whose medical records were abstracted for NAS surveillance and collection of individual level data
Pediatric Palliative Care		children with SHCN:
	200	- referred for services
	672	- receiving palliative care services (including 52 infants)
Perinatal Neonatal Quality Improvement Network (PNQIN)		others (hospitals):
	38	- participated in the Perinatal Opioid Initiative
	15	- trained in stigma, bias, and trauma-informed care
	32	- participated in equity (SPEAK UP) training

Attachment 1 Table
Massachusetts Program Service Numbers by MCH Categories, FY20

	35	- participated in Eat-Sleep-Console (ESC) training (14 have launched ESC in their centers)
	21	- received reports on Severe Maternal Morbidity for women with opioid use disorder (OUD) and participated in PNQIN webinars
	31	- participated in AIM OUD bundle
	22	- participated in AIM Obstetric Hemorrhage bundle
Personal Responsibility Education Program (PREP)		children:
	836	- middle school ages (ages <15)
	470	- adolescents (ages 15-19)
	4	- young adults (ages 20-24)
PRAMS Survey	2,501	infants (ages 2-6 months)
	2,501	other individuals: postpartum women (representative sample of 2021 resident births)
Primary Violence Prevention Program		children (ages 10-24):
	1,329	- direct programming/group sessions
	3,952	- community events/social media
Rape Crisis Centers (including the Spanish-language hotline Llámanos)	5,179	children participating in educational sessions
		other individuals:
	16,153	- adult participants in professional education and education sessions
	7,039	- calls to RCC and Llámanos hotline (all ages)
	2,800	- new rape crisis counseling and advocacy clients (all ages; some included in hotline call count above)
	22,233	- hours spent providing service to individual rape crisis counseling and advocacy clients
Safe Spaces for LGBTQ Youth		children (ages 10-24):
	530	- direct programming/group sessions
	1,707	- street outreach/community events/social media
School-Based Health Centers	6,437	children (ages 1 - 22)
	1,058	children with SHCN (included in total above)
School Health Services – Core	989,714	children (includes 911,465 students in public schools and 78,249 in non-public schools)
		others reached:
	351	- cities and towns receive consultation on health services
	385	- non-public schools
	3,000	- health professionals (education): 2,500 school nurses and 500 school physicians

Attachment 1 Table
Massachusetts Program Service Numbers by MCH Categories, FY20

**School Health Services –
Comprehensive**

children with SHCN (some children in both of the following categories):
35,379 - children with Individual Health Care Plans
134,052 - other children with diagnosed SHCN
522,313 children (students in public and non-public school systems with comprehensive programs)
others reached:
135 - public school systems with comprehensive programs
6 - regional advisor schools
28 - non-public schools with comprehensive programs

**Sexual and Reproductive Health
Program**

2,747 pregnant women
17,173 children (up to age 22)
36,312 other individuals (women and men over age > 22)

**STRIVE (Successful Teens:
Relationships, Identity, and Values
Education)**

193 adolescents (ages 10-19)

**SSI and Public Benefits Training
Program**

other individuals: parents of CSHCN, health, education and human services staff, hospital social workers, primary care providers, and state agency staff
341 - participants in 17 training programs including 147 parents
